

**RESOLUTION OF THE GEOLOGICAL SOCIETY OF AFRICA (GSAf)
COUNCIL HELD IN JOHANNESBURG, SOUTH AFRICA ON THE 12TH
JANUARY, 2011.**

The Geological Society of Africa (GSAf) would like to inform all its members, sponsors, partners and associates that it is not in any way associated or working with the newly formed “Geosciences Africa Society”, whose aims and objectives are counter-productive to the smooth running of an all Africa encompassing society (GSAf).

We re-iterate that GSAf aims and promotes the growth and development of Earth Sciences on the African continent.

Prof. Aberra Mogessie

President GSAf
